Aloha Judge!

PLEASE stop persecuting Microsoft! Hey, we all had a chance to decide what we wanted. I chose Microsoft and my daughter chose Apple. NOBODY forced either of us to make our decisions. I *DON'T* use MS's browser; I like Netscape better. What I really don't like is the recession brought on by *MY* government's persecution of the people who gave us the superb economy of the 90's. Soooo, PLEASE, let Microsoft do what they do best... provide the world with some very good products - and some junk ones, too! <g>

Me ke aloha, Mary in Honolulu
